

**The Renal-Electrolyte Division of the Department of Medicine at the University of Pittsburgh & UPMC is hiring!**

**Why UPMC?** Over the last 20 years, UPMC has ushered in a new era of health care excellence in Pittsburgh, western Pennsylvania, and locations around the world. UPMC has evolved from a single psychiatric hospital into a \$20 billion integrated global health enterprise closely affiliated with the University of Pittsburgh. UPMC is consistently ranked as one of America's Best Hospitals by U.S. News and World Report.

The Division of Renal Electrolyte in the Department of Medicine at the University of Pittsburgh and UPMC are seeking outstanding physicians (clinician educators) at the assistant or associate professor level (nontenure track).

The Division of Renal Electrolyte has built a dynamic and collaborative group of clinician educators. In addition to expertise in general nephrology, we are looking for candidates who excel in teaching medical students, internal medicine residents and nephrology fellows.

There will be opportunities for academic growth, career development and mentorship, with protected time for educational and clinical research activities, depending on applicant interests and accomplishments. We have strong basic and clinical research programs, and encourage translational research activities. Academic appointment is commensurate with professional experience. There are opportunities for leadership roles within our division. Compensation packages are competitive.

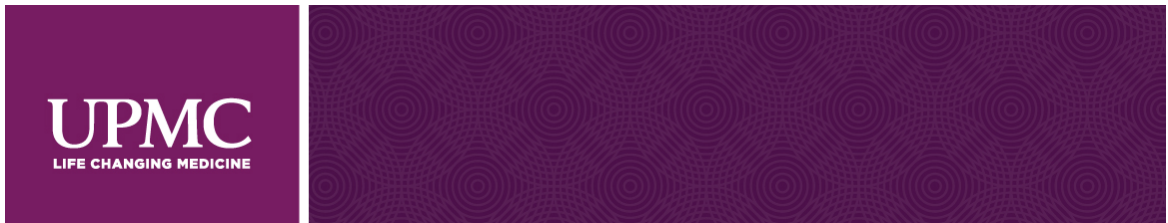

***What would qualify me for the faculty position?***

- ABIM board certified in Internal Medicine and in Nephrology
- Licensed to practice medicine in the Commonwealth of Pennsylvania
- Possess exceptional clinical knowledge and clinical acumen.
- Commitment to teaching, inpatient and ambulatory patient care

**Interested applicants please send a curriculum vitae, a letter of interest, and the names of three to five references by email to [mariadelesio@pitt.edu](mailto:mariadelesio@pitt.edu) or by mail:**
